# Economic Evaluation In Health Care: Merging Theory With Practice

## Synopsis

To accompany the hugely successful 'Methods for Economic Evaluation of Health Care Programmes 2e', this book is a thorough and rigorous discussion of the methodological principles and recent advances in the rapidly advancing field of theory and practice of economic evaluation in health care. Written by an internationally acclaimed group of authors, the book provides an in-depth discussion of the latest theoretical economic evaluation, including the methods for measuring costs and outcomes, the collection of data alongside clinical studies, ways of handling uncertainty, discounting and issues relating to the transferability of economic data. It is an ideal book for those studying economic evaluation on postgraduate or professional courses in health economics of public health.
