Doing Honest Work In College: How To Prepare Citations, Avoid Plagiarism, And Achieve Real Academic Success

Synopsis

As college deans and faculty are well aware, cheating and plagiarism have become an epidemic. Some students deliberately download papers, while others break rules they simply don't understand. Unfortunately, there have been no reliable guides to aid students, faculty, and teaching assistants in navigating these challenging issues. Now, there's help. Charles Lipson, a distinguished scholar and teacher who has coached thousands of students in the basics of honest work, provides clear, accessible, and often humorous advice on all aspects of college studies, from papers and exams to study groups and labs. In the first part of the book, Lipson outlines three core principles of academic honesty and explores how these principles inform all aspects of college work. He discusses plagiarism in detail, outlining an ingenious note-taking system and offering guidelines for quoting and paraphrasing. Careful attention is paid to online research, including the perils of "dragging and dropping" text without proper citation. These chapters include numerous tips, all highlighted for students, on how to work honestly and study effectively. The second part of the book gives a full account of citation styles in the humanities, social sciences, and physical and biological sciences, as well as in pre-professional studies. Filled with examples, these chapters show students exactly how to cite books, journals, edited volumes, Web sites, online publications, and much more--in every citation style imaginable. By clearly communicating the basic principles of academic honesty and exploring these principles in action, *Doing Honest Work in College* promotes genuine learning and academic success. This must-have reference empowers faculty and students to address questions about academic honesty before problems arise. It will be the book students turn to for advice from their first class to their final exam.

Book Information

Paperback: 208 pages

Publisher: University of Chicago Press; 1 edition (October 15, 2004)

Language: English

ISBN-10: 0226484734

ISBN-13: 978-0226484730

Product Dimensions: 9 x 6.4 x 0.6 inches

Shipping Weight: 9.6 ounces

Average Customer Review: 4.7 out of 5 stars [See all reviews](#) (6 customer reviews)

Customer Reviews

I cannot say enough about how invaluable this book is! As a high school English teacher, I have recommended this book to students and colleagues alike. It is a practical, clear, and comprehensive look at citation from a number of different styles. Not only do I use it in my classroom, but I have also shared it with members of my graduate courses. Everyone can benefit from some portion of the book; I have had it out on display in my classroom for the past week and have had numerous students pick it up and say things like "Wow, this actually makes it [citation] so much easier." A handful of them have actually gone out and purchased the book as well- that in itself speaks volumes!

I teach online college freshman level in the social sciences, and often struggle with the issue of plagiarism and lack of knowledge of the student upon entering college of the various academic research writing styles. I am also doing post graduate work in the education field and am currently involved in a research project on this problem in education. I found the book a valuable resource, and easy to understand. The book gives a basic broad view of the different styles of writing for the various disciplines, as well as basic information on proper citations and the meaning of plagiarism. Great book for a college freshman just starting out, or academic that works with various styles of writing.

This book is great guidance for any professor who wants to educate, warn or correct students in their academic behavior. I plan to list the book as recommended reading in all my classes this fall. Every college library should have a copy. Even ethically-challenged students will be able to understand the clear and easy-to-read explanations of academic honesty.
