Customer Reviews

This is a great book. I feel like a constant beginning fisher, I began fishing in California, began fishing in Oregon, and now I am beginning fishing in Florida. To help, I took a fishing class to familiarize myself with the local fish, techniques, etc. The instructors recommended this book. I was happy to see that there was also a DVD which showed some of the techniques described in the book. The illustrations for knot tying, and so forth are terrific.

Bought as a gift for my husband. He was very happy with the amount of information covered in the 2015 book along with the included live instruction DVD.

Husband stayed glued to book and cd till he memorized it. Spent hours re-rigging rods, etc.

Great book even learned a few things my 6 boys got a lot of information that helped with their

techniques of fishing To bad the DVD was broken during delivery

Like the books, good rigs and ideas for fishing. I wish this was also available electronic

All your questions answered if you a beginner saltwater fisherman.
