Red Herring Mysteries: Solving Mysteries Through Critical Questioning, Level 2/Grades 7-12+

Synopsis

CTB0512 Red Herring Mysteries develops students' inferential and deductive thinking skills for more effective reading, listening, and logical thinking. The activities also encourage creative brainstorming and flexible thinking. Given a seemingly contradictory statement, students must practice good thinking strategies and formulate astute "yes/no" questions to help them discover the solution to each mystery. Resolutions are often funny, adding appeal to the activities.

Book Information

Paperback: 82 pages

Publisher: Critical Thinking Co (February 2, 2008)

Age Range: 12 and up

Grade Level: 7 and up

Customer Reviews

While these should be enjoyable, they mostly make me (and the 6th grader for whom the book was purchased) gnash teeth in frustration. Random "gotcha" information that isn't at all available tends to change the facts and understanding of the various mysteries---nothing that can really be reasoned out (and learning better reasoning skills was the reason for purchase).

These are super fun and get your child's brain working. Your own as well!
