# Bubonic Panic: When Plague Invaded America

Synopsis

In March 1900, San Franciscoâ ™s health department investigated a strange and horrible death in Chinatown. A man had died of bubonic plague, one of the worldâ ™s deadliest diseases. But how could that be possible? Bubonic Panic tells the true story of Americaâ ™s first plague epidemicâ ”the public health doctors who desperately fought to end it, the political leaders who tried to keep it hidden, and the brave scientists who uncovered the plagueâ ™s secrets. Once again, acclaimed author and scientific expert Gail Jarrow brings the history of a medical mystery to life in vivid and exciting detail for young readers. This title includes photographs and drawings, a glossary, a timeline, further resources, an authorâ ™s note, and source notes.

Book Information

Hardcover: 200 pages

Publisher: Calkins Creek (May 10, 2016)

Language: English

ISBN-10: 1620917386

ISBN-13: 978-1620917381

Product Dimensions: 8.3 x 0.9 x 10.1 inches

Shipping Weight: 2.1 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 starsÂ Â See all reviewsÂ (1 customer review)

Customer Reviews

This was a page-turner. Less about the science of the plague bacteria and more about the history of communities that were impacted by the plague and how organizations/institutions of government/individuals worked tirelessly exploring, discovering, combating, eradicating the plague. Each contributor played a critical role in moving the world forward in saving its citizens from the plague. JarrowÃ¢Â Â™s writing synthesizes the stories of these people, seamlessly, into a cohesive narrative of what happened and is still happening because the plague still plagues us! As I read this, I envisioned middle school classrooms Ã¢Â Â“ language arts or social studies or an ambitious science teacherÃ¢Â Â”providing space for student-led discussions around larger themes of perseverance, collaboration, global citizenship, displacement, compassion, racism,

humanitarianism. Looking forward to reading Jarrow¢Â Â™s Red Madness and Fatal Fever. This might make for an interesting text set in a language arts classroom that is partnering with a science or content area classroom. Questions related to the science of the plague could also be used to launch research...
