Note- I did not purchase from this seller but wanted to review the productI bought an online version

of this book from the actual publishers and use the online Mindtap service for an upper-level college marketing class. I dislike the tone of voice in this book...it seems condescending at times and is written at a 5th grade level. Sentences are very repetitive and wordy. The interface for the online service also is very wonky. I will say, I do like the online version for the fact of how it is divided up. Instead of chapter sections spanning across many pages, the publishers divided each section into their own pages. For example, Topic 1-b of chapter one, (although in normal context would span across many pages) is one large page. When you click next, you go to topic 1-c. This makes the text seem more organized and makes the read seem much faster.

Pretty good book although my teacher said that she prefers the 5th edition. Muy buen libro y con excelentes ejemplos. TrÃ´s bon livre, il a beaucoup des bons exemples

Very detailed and outlined really well. It made it very easy to research. I definitely recommend getting this book. It's worth it.

Decent textbook. Digital version worked out great for class. Searchable texts makes studying so much easier!

Excellent book, great content! The theory works for my classes perfectly and I just update the examples.

branding, sponsorship, digital, advertising, marketing, consumers, rich in history yet futuristic

Product was exactly what I needed and there was no damage.

The book was very informative, I learned a lot from it.
