Customer Reviews

I was happy with the product, the condition and the information it provided. However, I was expecting more Space Marine Chapters to be involved or more information on other Chapters other than the Ultramarines. Overall, the product was worth getting to add to my knowledge of the Imperial Forces.

It is a very simple Space Marine guide that is based on Ultramarines. Lots of artworks. It also covers many other Space Marine Chapters. Showing different kind of Badges, Squad Variations, Vehicles, Banners, Weapons, & Official Ranks. Overall I like the book, very nice clean guide about Space Marines.

I was hoping for more of the original legions, but the focus was on the Ultramarines. There are some of the original legions represented in the color guide, but doesn't seem like enough of them. The guide also vaguely explains where insignia are placed, but fail to go into detail about why. There also seems to be a lack of consistency when it comes to the different legions in relation to which came first, second, etc. Otherwise, I enjoyed the color references and the detailed look at the Ultramarines.
