Destined (House Of Night Novels)

Synopsis

Zoey is finally home where she belongs, safe with her Guardian Warrior, Stark, by her side, and preparing to face off against Neferet – which would be a whole lot easier if the High Counsel saw the ex-High Priestess for what she really is. Kalona has released his hold on Rephaim, and, through Nyx's gift of a human form, Rephaim and Stevie Rae are finally able to be together – as long as he can truly walk the path of the Goddess and stay free of his father's shadow. But there are new forces at work at the House of Night. An influx of humans, including Lenobia's handsome horse whisperer, threatens their precarious stability. And then there's the mysterious Aurox, a jaw-droppingly gorgeous teen boy who is actually more – or possibly less – than human. Only Neferet knows he was created to be her greatest weapon. But Zoey can sense the part of his soul that remains human, the compassion that wars with his Dark calling. And there's something strangely familiar about him. Will Neferet's true nature be revealed before she succeeds in silencing them all? And will Zoey be able to touch Aurox's humanity in time to protect him – and everyone – from his own fate? Find out what's destined in the thrilling ninth chapter of the P.C. Cast and Kristin Cast's House of Night series.

With new lows in discrimination tactless and untasteful language Destined tests the boundaries and beyond in terms of YA. The latest edition of HON perfectly demonstrates the frustrations of a great concept being smothered by an overly indulgent publishing contract, unnecessarily complex mythologies, world building, and increasingly neglected characters. Yup. It's just as bad as it's predecessors. Zoe & Co Inc. are back in yet another been-there-read-that installment of the House of Night. In this episode Scooby Doo and Crew are trying to expose Neferet to the council (yet again) and find out what really happened on the night of Z's mom's murder. Surprisingly Destined had an individual story arc. Something that has eluded past installments for quite a few books.

Unfortunately good bones aside, Destined is written in the prose of the truly awful. I understand that Zoe and company are supposed to be typical trendy teenagers with relevant age appropriate voices, but the slang only manages to come across immature and ignorant instead of current. I get that the authors are trying to create irony with characters like Kramisha but it just doesn't work and becomes demeaning. The real irony is how an english teacher and an accomplished poet managed to compose the most inelegant, inarticulate, uneducated sounding young people ever immortalized in a published work. Along with bad dialogue the Cast's somehow consistently manages to turn what should be a shared reader/character experience of the emotional upheaval and devastation that occurs after death, into a load of corn and camp. I wish they would stop trying to mix grieving with pop references, not only does it diminish the impact of the situation, but it makes the whole passage awkward to read.
