Metaphysics: Books M And N (Clarendon Aristotle Series)

Synopsis

M and N, the last two books of the *Metaphysics*, are Aristotle's only sustained venture into the philosophy of mathematics. This volume includes the complete text of M and N along with 170 pages of commentary that provide a clear introduction for students. Focusing on the books' continuing philosophical interest, Annas presents an invaluable guide to this unjustly neglected part of Aristotle's thought.

Book Information

Series: Clarendon Aristotle Series

Paperback: 240 pages

Publisher: Clarendon Press (July 14, 1988)
