The End Of The World

Synopsis

The End Of The World A mind blowing space adventure. In the future, when space travel is commonplace, explorers are on the hunt for a new planet for mankind to inhabit. Marcus Robaniâ™s company is one of those involved in space exploration. For profit. They find a new planet and name it Robani 1. It seems empty, save for billions of dollarsâ™ worth of pure ore. Excavation begins. A crooked US Senator wants some of those billions, and blocks Marcusâ™ company from operations unless he gets a share. However, it comes to light that the planet is not uninhabited after all. The Beings who own it are not pleased with humans moving from their own decimated planet Earth and now abusing their planet. They think itâ™s time to end the problem of mankind and its greedy ways once and for all: with the complete obliteration of planet Earth. Only Marcus Robani himself can save Earth now . . . perhaps. How far would one man go for his dreams? By Lamees A. It is really a mind blowing space adventure
